Re: Proposed Tehachapi Renewable Transmission Project – Scoping Comments Addendum

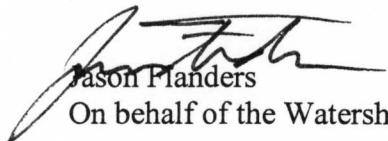

Dear Messrs. Boccio and Farra:

As a follow-up to our comment letter dated September 28, 2007, on the above-titled project, we submit the following correction and addendum:

Page 3 of our previous comment letter, stating, “For example, existing rights-of-way could be moved, new rights-of-way could be acquired, or transmission lines could be sited along the I-710 corridor,” should be corrected to state, “For example, existing rights-of-way could be moved, new rights-of-way could be acquired, or transmission lines could be sited along the I-605 corridor.”

Thank you again for the opportunity to provide scoping comments for the proposed Tehachapi Renewable Transmission Project.

Sincerely,

Jason Flanders
On behalf of the Watershed Conservation Authority
